Boom Arm

SEAROSE ENVIRONMENTAL

Extraction unit that is suitable for the wide range of applications where the extraction and removal of welding fumes and fine dust at source is required. Extension crane increases reach area of the unit and provide additional mounting options for larger working areas

Industries and applications:

Metalwork
Automotive
Precision engineering
Shipbuilding

Features:

Free flow ducts
Reliable extension crane support
Wide selection of different types
Built-in damper
Robust design
Built-in light and fan start/stop

Article №	Model	Reach area, m	Ø Diameter, mm	Recommended airflow, m^3/h	Installation height, m
