

# Telescopic Arm

Compact and easy to handle telescopic extraction arm. Specially designed for small workplaces and premises with low ceilings. Suitable for extraction of light dust and fumes. Reliable maintenance-free telescopic mechanism also ensures appropriate self-support and positioning of the unit.

## Industries and applications:

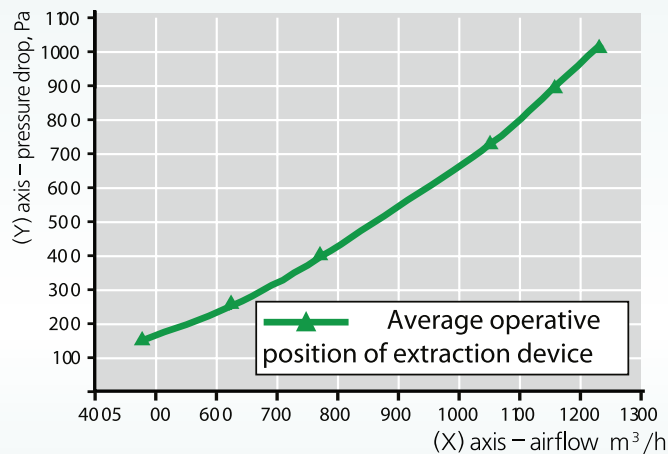

- Electronics
- Welding
- Chemical industry
- Precision engineering

## Features:

- Telescopic design
- Various mountings
- Ready for direct fan connection
- Built-in damper
- Easy positioning
- Maintenance-free internal mechanisms
